

LUCÍA PRIETO SANTAMARÍA

Assistant Professor, Universidad Politécnica de Madrid
lucia.prieto.santamaria@upm.es
Madrid, Spain
Last updated: February 2026

EDUCATION

PhD	Software, Systems and Computing (Industrial and international doctor distinction, <i>cum laude</i>) Ezeris Networks Global Services S.L. Universidad Politécnica de Madrid	July 2023
MSc	Computational Biology Data Science itinerary Universidad Politécnica de Madrid	July 2019
BSc	Biotechnology Computational biotechnology itinerary Universidad Politécnica de Madrid	July 2018

MAIN RESEARCH INTERESTS

- Biomedical informatics and computational biology
- Artificial intelligence and machine learning applied to biomedical domains
- Network medicine, human disease networks and drug repurposing
- Knowledge representation and semantic web
- Health-related social media analysis

ACADEMIC POSITIONS, RESEARCH AND PROFESSIONAL EXPERIENCE

Universidad Politécnica de Madrid September 2024 – Present

Assistant Professor (Profesor/a Ayudante Doctor/a)

Departamento de Lenguajes y Sistemas Informáticos e Ingeniería del Software

Researcher

Medical Data Analytics Laboratory (MEDAL), Centre for Biomedical Technology (CTB)

Barabasi's Lab (<https://www.barabasilab.com>) February 2026 – June 2026

Visiting research scholar

Center for Complex Networks Research (CCNR), Network Science Institute (NetSI), Northeastern University, Boston, USA

4-month research stay funded by a José Castillejo-**Fulbright** Fellowship (joint between the Spanish Ministry of Science, Innovation and Universities and the Fulbright Commission), and supervised by Albert-László Barabási.

MEDAL (<https://medal.ctb.upm.es/>) July 2023 – September 2024

Postdoctoral researcher

Centro de Tecnología Biomédica (CTB)

Universidad Politécnica de Madrid (UPM)

Universidad Internacional de La Rioja

March 2024 – September 2024

External professor

Escuela Superior de Ingeniería y Tecnología

Ezeris Networks Global Services S.L.

February 2020 – February 2023

Industrial doctorate (industrial supervisor: Yuliana Pérez Gallardo)
Junior software developer

MEDAL (<https://medal.ctb.upm.es/>)

September 2019 – July 2023

PhD candidate (academic supervisor: Alejandro Rodríguez González)

Doctoral thesis. “Creation, integration and analysis of disease networks towards a better understanding in the context of drug repurposing”, July 2023.

Barabasi’s Lab (<https://www.barabasilab.com>)

January 2023 – June 2023

Visiting PhD student

Center for Complex Networks Research (CCNR)
Network Science Institute (NetSI)
Northeastern University (NEU)

5-month research stay funded by UPM (supervised by Albert-László Barabási).

Researched on network medicine to generate new drug repurposing hypotheses, focusing on different complex human diseases.

MEDAL (<https://medal.ctb.upm.es/>)

September 2017 – July 2019

Research intern

MSc and BSc theses and internships (under the supervision of Alejandro Rodríguez González)

- Master thesis and internship. “Biological and phenotypical data analysis to generate new nosological models of diseases”, July 2019.
- Bachelor thesis and internship. “Extraction, similarity computing and analysis of biological features towards the creation of complex human disease networks”, July 2018.

RESEARCH PROJECTS

Active involvement in research **projects** and main responsibilities and contributions:

- **DISNET** (“Drug repositioning and disease understanding through complex networks creation and analysis”, <http://disnet.ctb.upm.es/>, RTI2018-094576-A-I00 from the Spanish Ministry of Science, Innovation and Universities). Member of the work team.
 - Human disease complex networks to gain a better disease understanding and drug repurposing. Extraction and integration of biomedical data structured in 3 levels: the phenotypical, the biological and pharmacological.
 - Intensive analysis of the information and generation of drug repurposing hypotheses. Employment of machine learning techniques both supervised and unsupervised.
 - Management tasks. Scientific writing and communication, as well as dissemination to the general public.
- **CUREX** (“Secure and private health data exchange”, <https://curex-project.eu/>, European Commission, Programme Horizon 2020, G.A. n 826404). Member of the work team.
 - Creation of a basic NLP module for texts related to computer network topologies.

- Development of an ontology for the semantic representation of data regarding asset discovery in distributed networks for healthcare environments.
- **P4-LUCAT** (“Personalized medicine for lung cancer treatment”, <https://p4-lucat.eu/>, ERA PerMed of Joint Transnational Call 2019 No. 163). Member of the work team.
 - Design and implementation of a relational database for the storage of lung cancer patient information.
 - Drafting of deliverables and assistance in the project management tasks in its initial stages.
- **MAVIS** (“Study on sentiments expressed on social media during the period 2015-2018 in posts related to vaccines”, funded by MSD, Spain, VEAP ID: 7789).
 - Analysis, visualization and understanding of data collected from Twitter posts and their polarity.
 - Scientific writing and dissemination in the form of journal papers.
- **3DR-GNN** (“Data-driven drug repositioning applying graph neural networks”, PID2021-122659OB-I00 from the Spanish Ministry of Science and Innovation). Member of the research team.
 - Writing of the project proposal. Project planification and management.
 - Implementation and supervision of the technical tasks to predict repurposing disease-drug links in a biomedical heterogeneous graph.
 - Scientific writing and dissemination in the form of journal and conference papers.
- **GRENADA** (“Drug repurposing hypotheses through a data-driven approach”, PDC2022-133173-I00 from the Spanish Ministry of Science and Innovation). Member of the work team.
 - Writing of the project proposal. Project planification and management.
 - Implementation of a relational database to store drug repurposing predictions generated by different data-driven methodologies.
- **LUCIA** (“Understanding Lung Cancer related risk factors and their Impact”, European Commission - Horizon Europe, ref 101096473). Member of the research team.
 - Technical tasks related to mapping lung cancer terminologies and creating a lung cancer risk factors ontology.
 - Assistance on the prediction of risk factors by means of Artificial Intelligence applied to knowledge graphs.

CONGRESSES AND CONFERENCES

2nd RePo-SUDOE (Second Conference of the project RePo-SUDOE), A Coruña (Spain), December 2025.

XXIV Encuentro de Rectores Grupo Tordesillas, Belo Horizonte (Brazil), November 2025.
CIABiomed (I Congreso de la Sociedad Española en Biomedicina), Sevilla (Spain), October 2025.
RExPO25 (4th International Conference on Systems Medicine, Artificial Intelligence and Drug Repurposing), Barcelona (Spain), September 2025.
CIMI2025 (I Congreso Interdisciplinar de Medicina e Ingeniería), Burgos (Spain), September 2025.
CBMS2025 (2025 IEEE 38th International Symposium on Computer-Based Medical Systems), Madrid (Spain), June 2025.
AI in Drug Discovery and Biomedicine, IRB Barcelona, BioMed Conferences, Barcelona (Spain), March 2025.

ECMTB2024 (13th European Conference on Mathematical and Theoretical Biology), Toledo (Spain), July 2024.
CBMS2024 (2024 IEEE 37th International Symposium on Computer-Based Medical Systems), Guadalajara (Mexico), June 2024.

RExPO23 (2nd International Conference on Systems Medicine, Artificial Intelligence and Drug Repurposing), Stockholm (Sweden), October 2023.
CBMS2023 (2023 IEEE 36th International Symposium on Computer-Based Medical Systems), L'Aquila (Italy), June 2023.

EKA2022 (23rd International Conference on Knowledge Engineering and Knowledge Management), Bolzano (Italy), September 2022.
CBMS2022 (2022 IEEE 35th International Symposium on Computer-Based Medical Systems), online, June 2022.
CamAIDD (1st Cambridge AI in Drug Discovery Conference), online, February 2022.

CDW21 (Connected Data World 2021), Online, December 2021.
CAEPIA20/21 (XIX Conference of the Spanish Association for Artificial Intelligence), Málaga (Spain), September 2021.
CBMS2021 (2021 IEEE 34th International Symposium on Computer-Based Medical Systems), online, June 2021.

CBMS2020 (2020 IEEE 33rd International Symposium on Computer-Based Medical Systems), online, July 2020.

Drug repurposing meeting, Biochemical Society Event, Birmingham (UK), November 2019.
CBMS2019 (2019 IEEE 32nd International Symposium on Computer-Based Medical Systems), Córdoba (Spain), June 2019.

TALKS

Keynote speaker, “Repurposing drugs through network medicine and artificial intelligence”, 2nd RePo-SUDOE, A Coruña (Spain), December 2025.

Workshop talk, “Workshop on Prompt Engineering”, Association for Computer Machinery (ACM) – UPM Chapter, Madrid (Spain), December 2025.

Invited round table discussion, “AI in Biotech”, Nucleate Spain, Spanish National Cancer Center (CNIO), Madrid (Spain), November 2025.

Invited talk and round table discussion, “Competencias para una inteligencia artificial inclusiva en la universidad: de redes biológicas a redes humanas”, XXIV Encuentro de Rectores del Grupo Tordesillas, Belo Horizonte (Brazil), November 2025.

Outreach talk, “Artificial Intelligence to understand and combat diseases”, Madrid Science and Innovation Week 2025, November 2025.

Conference talk, “Disease Understanding and Visualization of Drug Repurposing Hypotheses”, CIABiomed 2025, Sevilla (Spain), October 2025.

Conference talk, “A Weak Supervision Approach for Monitoring Recreational Drug Use Effects in Social Media”, CIABiomed 2025, Sevilla (Spain), October 2025.

Invited talk, “Rediscovering treatments: Artificial Intelligence for Drug Repurposing”, CIMI2025, Burgos (Spain), September 2025.

Invited talk, “AI in Biomedicine: From Data to Drug Repurposing”, XVI Convegno Interregionale Congiunto SIBIOC Piemonte - Valle d’Aosta, Big Data e Intelligenza Artificiale in Medicina di Laboratorio, online, June 2025.

Seminar talk, “Turning Data into Treatments: AI and Network Medicine for Drug Repurposing”, MSc in Computational Biology (UPM), May 2025.

Workshop talk, “Possibilities of LLMs in the Healthcare Sector”, EIT Digital in Mobile Talent Arena, Barcelona (Spain), March 2025.

Seminar talk, “Disease understanding: Dealing with complex and unstructured big data in biomedical domain”, MSc in Data Science (UPM), February 2025.

Invited round table discussion, ‘The Scope of Artificial Intelligence in Biomedicine’, XIII Congreso de Investigación Biomédica (CIB 2025), Valencia (Spain), February 2025.

Invited talk, “Rediscovering treatments: Artificial Intelligence for Drug Repurposing”, I Jornada de la Sociedad Española de IA en Biomedicina, Madrid (Spain), November 2024.

Outreach talk, “Artificial Intelligence to understand and combat diseases”, Madrid Science and Innovation Week 2024, November 2024.

Invited talk, “Bridging networks for drug repurposing: Insights from network medicine”, Mini-symposium on Complexity science for biological and medical problems, ECMTB2024, Toledo (Spain), July 2024.

Conference talk, “Exploring Drug Repurposing Opportunities for Schizophrenia A Network Medicine Approach”, CBMS2024, Guadalajara (Mexico), June 2024.

Conference talk, “DRAGON: Drug Repurposing via Graph Neural Networks with Drug and Protein Embeddings as Features”, CBMS2024, Guadalajara (Mexico), June 2024.

Outreach talk, “Innovating in feminine: Women in Montegancedo”, International Day of Women and Girls in Science 2024, February 2024.

Outreach talk, “¿How can we study and combat diseases with computers?”, Madrid Science and Innovation Week 2023, November 2023.

Conference talk, “Enhancing drug repurposing through graph neural networks and link prediction”, RExPO23 Conference, Stockholm (Sweden), October 2023.

Scientific talk, “On giving drugs a new life with the help of data”, Made in UPM Seminars at Real Colegio Complutense in Harvard, Boston (USA), May 2023.

Outreach talk, “¿How can we study and combat diseases with computers?”, Madrid Science and Innovation Week 2022, November 2022.

Seminar talk, “Disease understanding: Dealing with complex and unstructured big data in biomedical domain”, MSc in ICT Innovation: Data Science (EIT Digital – UPM), February 2022.

Outreach talk, “¿How can we study and combat diseases with computers?”, Madrid Science and Innovation Week 2021, November 2021.

Conference workshop talk, “DISNET: extracting public phenotypical knowledge of diseases”, CAEPIA2021, II Workshop of Spanish Research Groups of AI in Biomedicine, September 2021.

Doctoral symposium, “My Thesis in a Nutshell: Disease networks towards drug repurposing”, UPM, June 2021. Finalist award.

Seminar talk, “From data to treatments: Can we use public data to have a better understanding of diseases and reuse treatments?”, MSc in Computational Biology (UPM), online, May 2021.

Workshop talk, “Healthcare security ontologies for semantic representation of data / CUREX Asset Discovery”, MSc in Data and Web Science (Aristotle University of Thessaloniki, Greece), online, March 2021.

Seminar talk, “Disease understanding: Dealing with complex and unstructured big data in biomedical domain”, MSc in Data Science (UPM), online, February 2021.

Outreach talk, “¿How can we study and combat diseases with computers?”, Madrid Science and Innovation Week 2020, Online, November 2020. (<https://short.upm.es/vaxv3>)

Conference talk, “Analysis of new nosological models from disease similarities using clustering”, CBMS2020, online, July 2020.

Conference oral communication, “DISNET: Drug repurposing and disease understanding through complex networks creation”, Drug repurposing meeting, Biochemical Society Event, Birmingham (UK), November 2019.

Seminar talk, “Disease understanding: Dealing with complex and unstructured big data in biomedical domain”, MSc in Data Science (UPM), February 2019.

Programme Committee chair

- 2025 IEEE 38th International Symposium on Computer-Based Medical Systems (CBMS2025)
- 2024 IEEE 37th International Symposium on Computer-Based Medical Systems (CBMS2024)

Journal editor

- Associate Editor of Progress in Artificial Intelligence Journal (2024 – Present).
- Guest Editor of “Innovations in decision support systems for personalized medicine” in BMC Medical Informatics and Decision Making (2025 – Present).
- Guest Editor of “Innovations in Artificial Intelligence for Medicine and Healthcare” in Springer Health Information Science and Systems (2024 – 2025).
- Guest Editor of Collection “Computational techniques for drug repositioning” in BMC Medical Informatics and Decision Making (2023 – 2024).

External reviewer for competitive grant proposals

- Agencia Estatal de Investigación, Spain (2026)
- Med-Call Johannes Kepler University Linz, Austria (2026)
- Cures Within Research, US (2025)
- UKRI Funding Service, UK (2025)

FELLOWSHIPS AND AWARDS

José Castillejo – Fulbright Fellowship Competitive joint fellowship awarded by the Spanish Ministry of Science, Innovation and Universities and the Fulbright Commission to support short-term research stays in the United States. (Call: 2024; research stay: 2026).

Premio Extraordinario de Doctorado Awards to the best doctoral theses defended at Universidad Politécnica de Madrid (academic year 2022-23).

Premio Francisco del Pozo 2023 Award to the best doctoral thesis defended in the Center for Biomedical Technology (Centro de Tecnología Biomédica, CTB) in 2023.

Competitive call for mobility research fellowships in North America funded by Universidad Politécnica de Madrid (January – June 2023).

IND2019/TIC-17159 “Support for research and innovation programme (Industrial doctorates)”, Community of Madrid, Spain (2020 – 2023).

“Academic excellence scholarship”, Community of Madrid, Spain (2014 – 2015).

TEACHING EXPERIENCE

Universidad Politécnica de Madrid

Course 2025/26

Assistant Professor, Computer Languages and Systems and Software Engineering Department (“Escuela Técnica Superior de Ingenieros Informáticos”)

Subjects:

- Data Processes (EIT Digital MSc in Digital Innovation)
- Data Processes (MSc in Computer Engineering)
- Processes in Data Science (MSc in Data Science)
- Data Analysis (EIT Digital MSc in Digital Innovation)
- Complex Data in Health (EIT Health MSc Health and Medical Data Analytics)
- Databases (BSc in Biotechnology)

Supervision of Bachelor Theses

- Nerea Febrer Huerga, “Estudio de patrones de policonsumo y modelado predictivo del abandono del tratamiento en pacientes con adicciones”, BSc in Mathematics and Computer Science (UPM), January 2026.

Universidad Politécnica de Madrid

Course 2024/25

Assistant Professor, Computer Languages and Systems and Software Engineering Department (“Escuela Técnica Superior de Ingenieros Informáticos”)

Subjects:

- Data Processes (EIT Digital MSc in Digital Innovation) (5h)
- Data Processes (MSc in Computer Engineering) (5h)
- Processes in Data Science (MSc in Data Science) (5h)
- Data Analysis (EIT Digital MSc in Digital Innovation) (14h)
- Complex Data in Health (EIT Health MSc Health and Medical Data Analytics) (9h)
- Data Analytics (BSc in Mathematics and Computer Science) (6h)
- Databases (BSc in Biotechnology) (6h)
- Databases (BSc in Mathematics and Computer Science) (20h)
- Databases I (BSc in Data Science and Artificial Intelligence) (22h)
- Databases I (BSc in Computer Engineering) (10h)

Supervision of Master Theses

- Marcel Luis Palacios Jaén, “Application of ChatGPT for the Extraction of Knowledge from Disease Texts”, MSc in Data Science (UPM), September 2024.
- Mikel De La Fuente Landa, “Obtaining an index for evaluating the efficacy of a drug-disease pair, based on a generated Database: Comprehensive Analysis from Clinical Trials (CACT)”, MSc in Data Science (UPM), July 2025.
- Mariajose Franco Orozco, “Disease module extraction with Graph Neural Networks”, MSc in Data Science (UPM), July 2025.
- Lucía Sánchez Bella, “Analyzing the Impact of COVID-19 on Cocaine Addiction Treatment Dropout: A Machine Learning Approach”, MSc in Data Science (UPM), July 2025.
- Alejandro De Santos Otero, “Predicting Readmissions with Graph Neural Networks in Alcohol Recovery Programs”, MSc in Data Science (UPM), July 2025.
- Virginia González Díez, “Updating a Spring Data Extraction and Analysis Pipeline”, European MSc in Software Development (UPM). July 2025.
- Sofía Ferrández Benito, “Machine Learning for Drug Combination Therapy in the context of Network Medicine and Omic Signatures”, EIT Health MSc in Digital Innovation, Health and Medical Data Analytics (UPM), July 2025.
- Nathan Junod, “In Silico Drug Repurposing for Dermatological Disorders”, MSc in Computational Biology (UPM), July 2025.

- Elizabeth Kwon, “In Silico Repurposing Approach to Elucidate Novel Drug Treatments for Multiple Sclerosis”, MSc in Computational Biology (UPM), July 2025.
- Adam Varadi, “AI-Driven Insights for Fertility: A Machine Learning Approach to Hormonal Data”, EIT Digital MSc in Data Science (joint between UPM and Eotvos Lorand University), July 2025.

Supervision of Bachelor Theses

- Alba Sanz Bustos, “Generación de un Metamodelo Basado en Machine Learning para Determinar Casos de Reposicionamiento de Fármacos”, BSc in Data Science and Artificial Intelligence (UPM), June 2025.
- Alba Cortés Iglesias, “Análisis de los Efectos del Consumo Recreativo de Drogas en Publicaciones de Twitter”, BSc in Mathematics and Computer Science (UPM), June 2025.
- Antonio Gil Hoed, “Network Medicine Strategies for Disease Module Characterization”, BSc in Biotechnology (UPM), July 2025.
- Sara Santamaría Varona, “Análisis sistemático de estrategias, metodologías y resultados de la medicina de redes hasta el año 2024”, BSc in Biotechnology (UPM), July 2025.

Universidad Politécnica de Madrid

Course 2023/24

Teaching assistant, Computer Languages and Systems and Software Engineering Department (“Escuela Técnica Superior de Ingenieros Informáticos”)

Subjects:

- Data Processes (EIT Digital MSc in Digital Innovation) (3h)
- Data Processes (MSc in Computer Engineering) (3h)
- Complex Data in Health (EIT Health MSc Health and Medical Data Analytics) (20h)
- Processes in Data Science (MSc in Data Science) (3h)
- Data Analysis (EIT Digital MSc in Digital Innovation) (6h)
- Databases (BSc in Biotechnology) (17h)
- Data Analytics (BSc in Mathematics and Computer Science) (2h)
- Databases (BSc in Mathematics and Computer Science) (3h)

Co-supervision of Master Theses

- Laura Masa Martínez, “Analyzing Gene Expression Datasets for Disease Annotation Modelling”, MSc in Computational Biology (UPM), July 2024.

Co-supervision of Bachelor Theses

- María Marín Tercero, “Análisis de redes y reposicionamiento de fármacos: potencial a través de la medicina de redes”, BSc in Biotechnology (UPM), February 2024.

Universidad Internacional de La Rioja

Course 2023/24

External professor, Escuela Superior de Ingeniería y Tecnología | Facultad de Ciencias de la Salud

Subjects:

- Databases and Bioinformatic Resources (MSc in Bioinformatics) (60h)

Supervision of Master Theses

- David González López, “Uso de LLM para la extracción de conceptos SNOMED CT en anotaciones clínicas”, MSc in Artificial Intelligence (UNIR), July 2024.
- Celia Cabello Collado, “Imputación de Datos Genómicos Faltantes con técnicas de Aprendizaje Automático”, MSc in Artificial Intelligence (UNIR), September 2024.
- Carlos Fernández Herrero, “Análisis y comparación de algoritmos de clasificación en paciente de diabetes”, MSc in Artificial Intelligence (UNIR), September 2024.
- Anna Gracia Colmenarejo, “Predicción de la respuesta al tratamiento del cáncer de pulmón mediante redes neuronales artificiales”, MSc in Artificial Intelligence (UNIR), September 2024.
- Alejandra Saiz Jimenez, “Análisis de expresión de microARNs y abundancia microbiana mediante IA para la detección de cáncer de mama”, MSc in Artificial Intelligence (UNIR), September 2024.

Universidad Politécnica de Madrid

Course 2022/23

Teaching assistant, Computer Languages and Systems and Software Engineering Department (“Escuela Técnica Superior de Ingenieros Informáticos”)

Subjects:

- Data Processes (EIT Digital MSc in Digital Innovation) (4h)
- Data Processing Engineering (MSc in Computer Engineering) (4h)
- Complex Data in Health (EIT Health MSc Health and Medical Data Analytics) (8h)
- Processes in Data Science (MSc in Data Science) (4h)
- Data Analysis (EIT Digital MSc in Digital Innovation) (10h)
- Databases (BSc in Biotechnology) (10h)

Co-supervision of Bachelor Theses

- Álvaro Gutiérrez Castanedo, “Entendimiento de casos exitosos de reposicionamiento de fármacos mediante análisis de secuencias de proteínas”, BSc in Biotechnology (UPM), July 2023.

Universidad Politécnica de Madrid

Course 2021/22

Teaching assistant, Computer Languages and Systems and Software Engineering Department (“Escuela Técnica Superior de Ingenieros Informáticos”)

Subjects:

- Data Processes (EIT Digital MSc in Digital Innovation) (1.32h)
- Data Processing Engineering (MSc in Computer Engineering) (1.32h)
- Complex Data in Health (EIT Health MSc Health and Medical Data Analytics) (8h)
- Data Analytics (BSc in Mathematics and Computer Science) (8h)
- Processes in Data Science (MSc in Data Science) (1.32h)
- Databases I (BSc in Data Science and Artificial Intelligence) (8h)
- Databases (BSc in Mathematics and Computer Science) (8h)
- Databases (BSc in Biotechnology) (9h)

Co-supervision of Master Theses

- Andrea Álvarez Pérez, “On giving disease networks data a semantic context: generating an ontology reusing existing ones”, MSc in Computational Biology (UPM), July 2022.

Co-supervision of Bachelor Theses

- Natalia García Sánchez, “Biological sequence analysis in the context of drug repurposing and human disease complex networks”, BSc in Biotechnology (UPM), July 2022.
- Adrián Ayuso Muñoz, “Análisis y desarrollo de modelos de predicción de ejes en redes mediante técnicas de Deep Learning”, BSc in Computer Engineering (UPM), June 2022. [With honours]

Universidad Politécnica de Madrid

Course 2020/21

Teaching assistant, Computer Languages and Systems and Software Engineering Department (“Escuela Técnica Superior de Ingenieros Informáticos”)

Subjects:

- Complex Data in Health (EIT Digital MSc in ICT Innovation: Data Science – Health Itinerary) (7.5h)
- Data Analytics (BSc in Mathematics and Computer Science) (9h)
- Databases (BSc in Biotechnology) (7h)

Co-supervision of Master Theses

- Pablo Soto García, “Study and integration of new biological features data from public sources in the context of human complex disease networks”, MSc in Computational Biology (UPM), July 2021.

Co-supervision of Bachelor Theses

- Ignacio Montero Callejas, “Desarrollo de procesos para el análisis y visualización de datos fenotípicos y biológicos en el contexto de las redes de enfermedades humanas”, BSc in Biomedical Engineering (UPM), July 2021.
- Esther Ugarte Carro, “Drug repurposing approaches and validation through DISNET data”, BSc in Biotechnology (UPM), July 2021. [With honours]

Universidad Politécnica de Madrid

Course 2019/20

Co-supervision of Master Theses

- Sara Jaramillo Cárdenas, “Analysis of public data sources and drugs information extraction towards the elaboration of human complex disease networks”, MSc in Computational Biology (UPM), September 2020.
- Rizwan Saleem, “Towards drug repositioning: analysis of relevant drug features and computational methods”, MSc in Computational Biology (UPM), September 2020.
- Youness Elkhailil, “Analysis of phenotypic data on diseases and their relationships for drug repositioning”, MSc in Computational Biology (UPM), July 2020.

TEACHING INNOVATION PROJECTS

Evaluación Inteligente de SQL (EVIS) Team member	2025
Gestión de un acceso seguro a una Base de Datos desde una aplicación móvil Android Team member	2023
Resolución de misterios con bases de datos Team member	2023
The Great Quiz of Databases Team member	2022

TAUGHT COURSES

Artificial Intelligence Course (24h) Samsung Innovation Campus, Madrid, Spain	November 2025 – January 2026
Coding and Programming (16h) Samsung Innovation Campus, Madrid, Spain	October 2025
Data Analysis (4h) UPM International Summer School, Madrid, Spain	July 2025
Introduction to Databases (14h) Cabify, Madrid, Spain	November 2024
Artificial Intelligence Course (30h) Samsung Innovation Campus, online	October 2024
Unsupervised machine learning (5h) Banco Santander Internal Educational Programme, Madrid, Spain	October 2020

Data mining, solutions and horizontal applications (4h)

October 2020

University of Military Forces, Ecuador

Unsupervised machine learning (5h)

February 2020

Banco Santander Internal Educational Programme, Madrid, Spain

Introduction to databases for Data Science (5h)

January 2020

Banco Santander Internal Educational Programme, Madrid, Spain

Unsupervised machine learning (5h)

December 2019

Banco Santander Internal Educational Programme, Madrid, Spain

TECHNICAL SKILLS

Information extraction and storage

- Programmatic access to data sources by means of APIs and web services.
- Strong knowledge of relational databases, with emphasis on MySQL database management system.
- Strong knowledge of Python scripting and basic knowledge of R.
- Familiar with NoSQL databases, in particular with graph databases. Notions on Neo4J.
- Familiar with semantic technologies, biomedical ontologies, RDF language and SPARQL queries.
- Familiar with NLP pipelines and tools.

Data processing, manipulation and analysis

- Python (pandas, numpy, scipy, scikit-learn) and R.

Data visualization

- Python (matplotlib, seaborn, plotly) and R (ggplot).
- Graph visualization (gephi, cytoscape).

Machine learning

- Strong knowledge in unsupervised and supervised learning.
- Python (scikit-learn, PyTorch, DGL, pyclustering).
- Basic knowledge of Weka and Knime.

Bioinformatic tools

- Sequence alignment (BLAST, ClustalW) and phylogenetic studies.
- Basic knowledge of genomic data analysis.

Others

- Anaconda, JupyterLab, Visual Studio Code
- Unix/Linux systems
- Version control with Git
- Notions of Perl, Ruby and Matlab
- Docker, VMware, Oracle VMVirtualBox
- Microsoft Word, LaTeX

LANGUAGES

- Spanish: native
- English: C1 (Cambridge Assessment English – Certificate in Advanced English, March 2022)
- French: Basic

COURSES

- Researcher Connect training programme (British Council), online, January 2024.
- Data visualization courses (Domestika), online, ongoing.
 - “Introduction to data visualization”
 - “Data visualization and information design: creating a visual model”
 - “Data visualization for editorial projects”
- KNIME Analytics Platform for Data Scientist: Basics, online, October 2021.
- SNOMED-CT E-Learning, online, March 2021.

PROFESSIONAL AFFILIATIONS

Since September 2017	ETS Ingenieros Informáticos, Universidad Politécnica de Madrid, 28660 Boadilla del Monte, Madrid, España
	Centro de Tecnología Biomédica, Universidad Politécnica de Madrid, 28660 Boadilla del Monte, Madrid, España
February 2020 – February 2023	Ezeris Networks Global Services S.L., 28028 Madrid, España

SPANISH ANECA ACCREDITATIONS

Since December 2023	Profesor/a Contratado/a Doctora/a
Since December 2023	Profesor/a de Universidad Privada

SCIENTIFIC SOCIETIES AND ASSOCIATIONS

Sociedad Española de Inteligencia Artificial en Biomedicina – IABiomed (Spanish Society of Artificial Intelligence in Biomedicine)	Since 2024
• Board Member , Director of Training and Professional Development Area	2025 – Present
Sociedad Española en Bioinformática y Biología Computacional – SEBiBC (Spanish Society of Bioinformatics and Computational Biology, Member)	Since 2024
Sociedad Española en Ingeniería Biomédica – SEIB (Spanish Society in Biomedical Engineering, Member)	Since 2023
Asociación Española para la Inteligencia Artificial – AEPIA (Spanish Association for Artificial Intelligence, Member)	Since 2021

OTHERS

- Title of Rhythmic Gymnastics Coach (1st Level), RFEG (Royal Spanish Gymnastics Federation), July 2014, coaching in several schools and clubs (Madrid, Spain), 2014 – 2020.
- Driving license (Madrid, Spain), May 2015.
- Private tutor for high school students in subjects such as mathematics, physics and chemistry (Madrid, Spain), 2012 – 2014.
- YMCA Camp Weona counselor volunteer (Buffalo, USA), July 2012 and July – August 2013.
